RE: *Consumer comments in support of Arizona Public Service Company's Energy Efficiency Programs and Program Budgets, E-01345A-11-0232*

Dear Chairman Pierce and Commissioners,

We are Arizona Public Service Company (APS) customers who want you to support the energy efficiency programs and program budgets proposed by APS in its energy efficiency implementation plan.

We are willing to invest in energy efficiency on our bill because we understand that energy conservation programs will keep energy costs low for everyone and will create jobs in our community. If we don't invest in energy efficiency, we guarantee ourselves higher energy bills in the future as APS will need to build unnecessary infrastructure, buy more fuel from out-of-state, and send jobs out of Arizona.

We encourage you to protect the interests of today and tomorrow's ratepayers by supporting these important programs.

Sincerely,

Paul and Jean Handover
